PORTFOLIO

PROFILE SUMMARY

Designer specializing in UI/UX, prototyping, and front-end collaboration, I enjoy designing complete experiences to ensure that the final product reflects the original intention. Comfortable with Figma, user flows, and interactive prototypes, I work closely with developers to improve interactions and overall quality. Curious and impact-driven, I enjoy analyzing user feedback and data to propose iterations that improve usability, conversion, and retention.

WORK EXPERIENCE

Freelance - UI/UX Design & Web Developer June 2025 - In progress

- **Customer needs analysis:** Engage with customers to understand their objectives, audience, constraints, and brand identity.
- **UX design:** Create simple, intuitive user journeys tailored to the project's challenges (showcase website, application, e-commerce).
- **UI design:** Produce modern, consistent Figma mockups, respecting the customer's branding or creating a new identity.
- **Web development:** Build high-performance websites according to requirements, with clean, responsive code.
- **Project management:** Plan stages, propose tailored solutions, manage customer feedback, and deliver on time.
- **Optimization and advice:** Improve website usability, visibility, and performance, and advise customers on best web practices.
